Does NORC collect data from minors?

Yes. NORC does collect data from minors (defined as persons under the age of 18 years old) following consent from parents or legal guardians. NORC's policy regarding data collected from minors is more restrictive than our overall Privacy Policy to provide further protection to minors and is discussed below.

NORC believes it is important to protect the online privacy of minors. Accordingly, NORC adheres to applicable laws and regulations pertaining to the protection of minor's privacy, including, without limitation, the Children's Online Privacy Protection Act of 1998 in the United States (as amended). NORC carefully considers both privacy issues and parental concerns in connection with surveys involving individuals under the age of eighteen (18). For example, in the United States, NORC does not knowingly collect

PII from anyone under the age of 18 without first obtaining parental consent or determining emancipated minor status. **Any content in this section of NORC's Privacy Policy that is more restrictive or contradicts any other section of this Privacy Policy shall supersede and control to the extent that it applies to data collected from minors.**

NORC maintains appropriate technical, administrative and physical safeguards to protect PII and other information disclosed or collected by NORC. NORC reviews, monitors and evaluates its privacy practices and protection systems on a regular basis. Notwithstanding the foregoing, transmissions over the Internet and/or a mobile network are not one hundred percent (100%) secure and NORC does not guarantee the security of transmissions. Please be apprised that all Internet-based communication is subject to the remote likelihood of tampering from an outside source.
